

## Non-Traditional Animal Acquisition Form

IACUC approval is required for any animal obtained by means other than purchase from an approved vendor prior to the animal entering a CMU animal facility.

**Any animal of an unknown health status (that is known or suspected of being infected with organisms that do not meet standards established by the IACUC and veterinary staff) must be isolated, quarantined, stabilized and undergo health assessment and be managed using specific procedures (management procedures).**

Please complete this form and submit it to the manager of the facility where animals will be housed no less than two weeks prior to the anticipated date of arrival.
